WORK EXPERIENCE

URIHANGUG

Full Stack Developer

South Jakarta, Indonesia

March 2026 - Present

- Designed, built, deployed, and continuously operates a production EPS-TOPIK learning platform serving 1.1K+ registered users.
- Developed 60+ structured lessons and 3,000+ practice questions with quiz engines, progress tracking, premium access, affiliate workflows, payments, complaints, and leaderboard/XP features.
- Owns requirements, database changes, safe migrations, builds, VPS/PM2 deployment, debugging, monitoring, and post-launch maintenance.
- Uses backup, dry-run, validation, and reconciliation practices to protect existing production user data during system changes.

SMK AL-HIDAYAH LESTARI

Full Stack Web Developer Intern

Indonesia

January 2026 - March 2026

- Developed and launched the school's official profile and online SPMB admissions system using Laravel and MySQL.
- Built responsive public pages, applicant registration/authentication, academic calendar, announcements, and an administrative CRUD dashboard for content and applicant data.
- Supported testing, cPanel deployment, production troubleshooting, and improvements for mobile and lower-bandwidth access.

IMSISFO ITB AHMAD DAHLAN

Web Developer & P3SI Staff

Jakarta, Indonesia

2025 - 2026

- Built and maintained a student-organization portal supporting leadership structures, programs, registrations, reports, news, agendas, galleries, and public information workflows.
- Implemented member administration, role-based access, organization-structure automation, large-file uploads, and mobile workflow improvements across IMSISFO and BPH operations.

SELECTED PROJECTS

ArdiStore | Creator & Full-Stack Developer

Laravel 12 • Blade • Tailwind CSS • MySQL • Git/GitHub

- Built a unified services and portfolio website combining client-facing web offerings, production work, and 20 industry-oriented business-system demos.
- Implemented guest ordering, Google-authenticated reviews, portfolio/service pages, SEO foundations, secure private-repository workflows, and read-only demo isolation.

Silatin Akademi | Web Developer

PHP Native • MySQL • Responsive Web Design

- Built public and administrative workflows for programs, learning materials, facilities, documentation, subscriptions, attendance, users, media uploads, and content management.

Bukit Jengkoang Tourism & Horticulture Website | Web Developer

HTML • CSS • JavaScript • Performance Optimization

- Delivered a lightweight tourism and educational website with route guidance, maps, galleries, video, QR access, responsive layouts, lazy loading, and low-bandwidth usability improvements.
